-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

- I. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- A. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- i. Regarding claim 5, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.

See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

- II. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- A. Claims 1, 3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Pelosi et al., US No. 5,553,431 ("Pelosi").
- i. Pelosi discloses a trim comprising

Art Unit: 3676

- ii. an elongated trim with front-side (18) and a back-side (20), the front-side (18) having a top-front-side and a bottom-front-side and the back-side having a top-back-side and a bottom-back-side (Figs. 2 and 4);
- iii. the top-front-side having a convex curvature (formed at distal end nearest reference numeral 24) and the bottom-front-side (formed at distal end nearest 14) having a concave curvature, wherein the convex and concave curvatures form a continuous S-shape curvature (Fig. 2, cross-section);
- iv. the top-front-side joining the top-back-side at an acute angle and the bottom-front-side joining the bottom-back-side also at an acute angle (Fig. 3);
- v. the top-back-side having a plurality of recesses for holding an adhesive-sealant compound, wherein the top-backside can be affixed to the vertical surface of the joint;
- vi. the bottom-back-side having a recess for holding an adhesive-sealant compound (Fig. 5), wherein the bottom-back-side can be affixed to the joint between the vertical and horizontal surfaces.
- vii. The trim is installed at a joint between a wall and a tub (Fig. 1).
- viii. The trim has a flat left-edge and a flat right-edge (Fig. 1).

Claim Rejections - 35 USC § 103

III. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

A. Claims 2, 4, 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pelosi in view of Cable et al., US No. 3,830,625 ("Cable").

i. Pelosi does not disclosed either the front or backside being glazed ceramic or the 45 degree bevel at a left or right edge.

ii. Cable discloses the glazed ceramic tile trim for aesthetic purposes.

iii. It would have been obvious to one of ordinary skill in the art at the time of applicant's invention to modify Pelosi as taught by Cable in order to make the trim more aesthetic, and further to make the bevel 45 degrees to conform to corners, which is notoriously well know in the art of trim moldings.
